

ImmunoE

WORK IN PROGRESS SESSIONS

Jan 21, 2026 | 3PM-4PM

Zach Morse, Post-doc

Evgin Lab, Basic and Translational Research Department, BC Cancer

“Genetic engineering of CAR T cells for extranodal lymphoma therapy”

Input on: CAR T cells, gene engineering, cancer immunotherapy

Jaime Korner, Post-doc

Kaigala Lab, School of Biomedical Engineering, UBC

“Microfluidic processing and detection of urinary exosomal miRNA for cancer early detection”

Input on: Extracellular vesicle capture, miRNA detection on-chip, cancer engineering
