

ImmunoE

WORK IN PROGRESS SESSIONS

Mar 18, 2026 | 3PM-4PM

Juliana Montoya Sanchez, Ph.D. Student

Ciernia Lab, Department of Biochemistry and Molecular Biology, UBC

"Developing next-generation RNA delivery approaches to microglia"

Input on: Microglia, lipid nanoparticles, RNA therapeutics

Natalie Stewart, Ph.D. Student

Wisnovsky Lab, Faculty of Pharmaceutical Sciences, UBC

"The glyco-immune checkpoint receptor Siglec-7 interacts with T cell ligands to regulate T cell activation and signaling"

Input on: Glyco-immune receptor, T cell activation and signaling
