

ImmunoE

WORK IN PROGRESS SESSIONS

Mar 25, 2026 | 3PM-4PM

Lily Bertolo, Ph.D. Student

Sun Lab, Department of Microbiology and Immunology, UBC

"Acidification inhibitors as adjunctive therapy for intracellular bacterial infections"

Input on: Combination therapeutics, Phagosome maturation, RNA sequencing, In vivo therapeutic testing

Katia Rosenflanz, MAsc Student

Ma Lab, School of Biomedical Engineering, UBC

"A nanoparticle-based assay for multidimensional immune cell characterization"

Input on: Nanoparticle conjugation, Cytokine secretion, Potential applications
