

ImmunoE

WORK IN PROGRESS SESSIONS

April 8, 2026 | 3PM-4PM

Lucas Zhu, Ph.D. Student

Osborne Lab, Department of Microbiology and Immunology, UBC

“Investigating the mechanism of fiber-mediated T cell modulation in a mouse model of multiple sclerosis”

Input on: Neuroinflammation, T cell biology, dietary modifications

Cynthia Huang, MAsc Student

Blakney Lab, School of Biomedical Engineering, UBC

“Engineering saRNA for Secreted Therapeutics: From Molecular Design to Functional Outcomes”

Input on: saRNA Therapeutics, Inflammation, Lipid Nanoparticles
