

ImmunoE

WORK IN PROGRESS SESSIONS

April 22, 2026 | 3PM-4PM

Sunny Chen, Ph.D. Student

Blakney Lab, School of Biomedical Engineering, UBC

"Single-cell mapping reveals temporal and LNP-RNA formulation-dependent immune responses in human PBMCs "

Input on: Lipid Nanoparticles, single-cell RNA sequencing analysis, human PBMC biology

Ceren Gulhan, Ph.D. Student

Evgin Lab, Interdisciplinary Oncology Program, BCCRI/UBC

"Exploring novel RNA species for the use of in vivo CAR T-cell generation"

Input on: CAR T-cell therapy, RNA-LNPs, circRNA, saRNA, lymphoma
