

ImmunoE

WORK IN PROGRESS SESSIONS

April 29, 2026 | 3PM-4PM

Jeff Yoon, Ph.D. Student

Mui Lab, Department of Biochemistry and Molecular Biology

“Investigating the mechanism of miRNA variations and strand selection by studying the regulation miR-155 during inflammatory response”

Input on: miR-155, macrophage, miRNA, Inflammation, Anti-inflammation

Faezeh Borzooee, Post-Doc

Kuchenbauer Lab, TFL, BC Cancer Research Centre (BCCRC)

“Targeting APOBEC3 enzymes as novel metabolic regulators in multiple myeloma”

Input on: DNA mutating enzyme, Metabolism regulation, Multiple Myeloma
